#### 

Certified Principal Investigators and Sites

# We believe value is in the creation of a research community for qualified investigators and trial sites identified with resources to complete trial protocols.

The Clinical Trial Collaborative Directory for Investigators or Institutions is FREE, and we encourage you to enroll whether you are a Member or a Non-Member of the SIO. We also encourage those in Interventional Oncology (IO) and Interventional Radiology (IR) and other multidisciplinary specialties involved in clinical trials to enroll.

SIO requires a brief <u>log in process</u> with completed profile information to access the enrollment forms or the online course. Please follow the directions and screenshots listed below and reach out to <u>info@sio-central.org</u> for assistance if needed.

#### Society of Interventional Oncology (SIO) login

- To access the Clinical Trial Collaborative enrollment forms, we ask for SIO members to log into their membership account. From there navigate to the Clinical Trials Program and use the dropdown for selection. (see the next screenshot)
- If you are not a current SIO Member, we welcome you to create a Non-Member Guest account FREE of annual charges. Select <u>here</u> to create the account and complete the brief profile information. Profile information will pull into the Investigator application. Once complete, navigate to the Clinical Trials Program and use the dropdown for selection. (see the next screenshot)

## Search the Investigator Directory

- Select one or more inputs to filter results. *Please note it is best to select fewer inputs and possibly clear the search to perform another search rather than narrow the filters to too many inputs.*
- Select the Short Contact Record, a more detailed Longer Record with Experience and Information will display.
